## The Concept of the Opposites In Ourselves and in Our Culture

Spring 2017

A class offered by the C. G. Jung Institute of Colorado

Jungian psychology connects us to the rich and mysterious inner world that our culture so often discounts. This class will look at that world from the perspective of Jung's concept of the Tension and Harmony of the Opposites. Analysts of the Jung Institute of Colorado will lead discussions on various aspects of the concept of the Opposites in Jungian psychology, exploring this fascinating psychological phenomenon with participants. This is an excellent opportunity to work with the members of the Jung Institute of Colorado, and the class is designed for beginners as well as individuals who are "experienced" in Jungian studies. Meetings will be on Wednesdays.
